

I utilize the traffic and weather channels on XM while traveling both for business and pleasure. They are very valuable both to my safety as well as my families safety. I have been a listener of satellite radio for almost 2 years now because of the variety and selection it offers my family. As a paying member for the services provided by XM I do not believe it to be the right of the NAB to tell me what I can and cannot listen to. I respectfully urge the FCC to reject the NAB's petition 04-160 so I can continue to receive the valuable service that I chose and pay for.
